Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter:

The art of record does not disclose a registration method for registering three dimensional images with two dimensional images using two similarity/cost measures.

The art of record discloses registration using one similarity/cost measure. The use of at least two similarity/cost measures is novel over the art of record. Furthermore the Prior art of record does not disclose the combination of elements of claim 52. Regarding the Independent claims all of these claims "generating a digitally reconstructed... radiograph." This element necessarily requires a computer or processor and is therefore tied to a particular machine or device.
